

Dear partners,

We establish this communication path to provide info and news regarding Phaistos Investment Fund and its portfolio. Our Fund in these 29 months of operation, succeeded in developing a promising portfolio of tech companies at various vertical industries disrupted by new network connectivity like 5G.

Greek companies with exciting teams , companies founded abroad that established a subsidiary in Greece, Greek founders, Silicon Valley talented deep tech teams, all in an exciting market puzzle of Spacotech, Chip design, Retail, Micro Logistics, Cybersecurity, Insurtech, IoT platforms. Having as a main objective to provide returns to the investors, Phaistos Investment Fund also contributes to tech transfer/leverage locally especially in very specialized sectors like Space or chip design for example. All these were made possible through your contribution & support. We thank you sincerely and encourage you to provide us with suggestions & ideas for further improvement.
